SUMMARY

- 10+ years designing and delivering systems across cloud infrastructure, API integrations, data pipelines, and marketing technology.
- Full-stack engineering and marketing leadership background — understand what systems need to do for the business, not just how to build them.

PROFESSIONAL EXPERIENCE

Tall Karol — Principal Solutions Architect 2023 — Present

Scoping, designing, and shipping systems end-to-end across cloud infrastructure, API integrations, and MarTech — from pre-sales discovery through production deployment. AWS document portals, Python ETL pipelines, UTM attribution, locally-hosted AI transcription (HuggingFace), GTM components, WordPress VIP performance (LCP 5.5s→3.2s). AI-forward — LLM tooling for analysis, docs, and iteration; local AI tooling for inference, automation, and workflows without external data.

Universal Windows Direct — Backend & Integration Engineer (Full Stack) 2021 — 2023

Automation infrastructure, API integrations, and internal tooling for marketing, sales, and operations. Custom API connecting Five9, Mailchimp, CRM; shared logging framework; lead management systems; cron-based data pipelines; Joomla→WordPress migration with zero downtime.

Mineralife Nutraceuticals — Web & Marketing Systems Consultant 2021 — Present

Engineering improvements across B2C and B2B ecommerce. WooCommerce data dashboard for order/inventory/revenue; lifecycle automation and segmentation; integrations between WooCommerce, email, and analytics.

Perfect Power Wash — Marketing Director / Head of IT 2019 — 2021

Owned strategy and technology stack during expansion from 1 to 4 markets. Internal tooling for call center, lead management, marketing automation; hired and trained developer. 237% conversion increase, 175% CTR via A/B testing; data infrastructure and dashboards for multi-market visibility.

Freelance Developer / Designer 2009 — 2019

10 years of client-facing work: full-stack web development, brand strategy, ecommerce builds, digital infrastructure. Expertise in requirements gathering, project scoping, and systems thinking that underpins current architecture work.
