SUMMARY

- **Strategic Architect:** 10+ years designing web systems, cloud infrastructure, API integrations, and data pipelines — bridging the gap between full-stack engineering and C-suite business objectives.
- **Systems Leader:** Expert in technical discovery and autonomous project ownership, aligning architectural decisions with long-term revenue and operational efficiency.

SOFT SKILLS

- **Stakeholder Orchestration:** Translates business objectives into technical requirements; communicates ROI and risk mitigation to C-suite and engineering teams alike.
- **Autonomous Ownership:** Leads the full architectural lifecycle—discovery, POC, and deployment—with zero oversight required.
- **Strategic Scoping:** Expert in technical discovery and SOW definition, balancing business velocity with technical feasibility.
- **Systems Thinking:** Aligns architectural decisions with long-term business outcomes to ensure technology serves as a revenue multiplier.
- **Cross-Functional Leadership:** Builds consensus across engineering, product, and marketing to drive complex, multi-departmental initiatives.

TECHNICAL SKILLS

Cloud: AWS (Amplify, Lambda, Cognito, RDS, S3), GCP, Vercel, Supabase

Platforms: WordPress VIP, WooCommerce, GTM, GA4, Mailchimp, Five9, Zapier, Databricks

Languages: PHP, JavaScript, TypeScript, Python, SQL

Frameworks: React, Node.js, TailwindCSS

CERTIFICATIONS

- Google Cloud Digital Leader (GCP-DL)
- Azure Fundamentals (AZ-900)
- AWS Solutions Architect Associate (SAA-C03)

EDUCATION

Case Western Reserve — Full Stack Web Development

Miami University — International Marketing

PROFESSIONAL EXPERIENCE

Tall Karol — Principal Solutions Architect | 2023 — Present

Directs the full architectural lifecycle—from pre-sales discovery to production deployment—for enterprise and growth-stage clients.

- Architected a multi-tenant serverless AWS document portal (Amplify, Cognito, Lambda, S3) with role-based access and immutable audit logging to meet enterprise compliance standards.
- Designed a decoupled GCP/Python ETL layer to orchestrate asynchronous data transfers into Databricks, ensuring data integrity and idempotency across heterogeneous systems.
- Engineered air-gapped AI meeting intelligence using local HuggingFace inference, automating deadline extraction while maintaining 100% data residency and privacy.

Universal Windows Direct — Backend & Integration Engineer | 2021 — 2023

Full-stack integration engineering role — automation infrastructure, API integrations, and internal tooling supporting marketing, sales, and operations across an enterprise home services organization.

- Built a custom API and automation layer connecting Five9 (call center), Mailchimp, CRM, and internal tools — replacing manual data handoffs across sales and marketing ops.
- Designed a shared logging and error handling framework used across all internal scripts — making the system debuggable and fast to extend.
- Migrated server infrastructure across 4 VPS partitions with zero downtime.
- Led full site migration from Joomla to WordPress, preserving all custom functionality.

Perfect Power Wash — Marketing Director / Head of IT | 2019 — 2021

Led the technical and strategic expansion of the organization from 1 to 4 markets.

- Architected the internal tech stack for call center and lead management operations; hired and mentored the engineering team to scale custom systems.
- Designed multi-market reporting infrastructure and data dashboards, providing leadership with a unified view of performance metrics across all operational territories.

Freelance Developer / Designer | 2009 — 2019

Managed full-cycle delivery for mid-market clients, focusing on digital infrastructure strategy.

- Translated business goals into technical architectures for e-commerce and brand systems, developing foundational expertise in requirements gathering and stakeholder management.

REFERENCES

> *"He's one of the rare professionals who can bridge the gap between deep technical capability and real business understanding. Whether the work involved internal tools, customer-facing platforms, or data connections between legacy systems, he always approached challenges with clarity, logic, and a calm, solutions-focused mindset."*

John Kosmides — Vice President of Marketing, Perfect Power Wash & Universal Windows Direct
